

Dear Friend,

Greeting to you!

Thank you very much for your prayer and practical assistance in the time of desperate need of our people. We exalt to our Lord Jesus Christ who made possible to gather the resources which we required for the relief program. we were dying to reach the desperate people with food and tents so our Lord provided us. We always valued and highly appreciated your prayer and practical support.

The 25th April earthquake had hit partly to the countryside and immediately had gone to our daughters church village with 100 tents and 65 bags of rice. But when the second time earthquake hit 12 May; almost houses of the people at the villages had gone. so we had gone to Dolakha Jungu with enough tents and rice to the whole villagers. 1st time we did not have enough fund but this time we had enough after the second hit. we won't be able to reach these people without your financially help.

Brothers and sisters thank you very much for your prayer and practical support. In the 1st phase we have gone with food, tents for all. In the second phase we will go and directly involve to the people to build their shelter. it is good news that government also helping to the each family to rebuild their home. the summer is very close here, people do not have choice other than the tent house. they will face snake bites and other problems from the wild animals Without having proper house. Life is uncertainty during the summer time due to the rain; they may have land slide. The most of their surrounding land already got crake.

However, people beginning their normal life although there is still after shock. Government had urged to send back their children to the School but parents have still fear for their children. 95% of school at the villages are completely gone. Kathmandu is so quiet when people from the village is still not returned back.

our own Children also unlike to go school. orphan's children also beginning their school from tomorrow. There will be 4 more orphans joining to Grace children home, it mean we will have 11 orphans.

again thank you very much for your prayer and generous heart in the time of need.

your brother in His service,

Chitra Karki
